Box Size	: 250x160x100mm
Recess Size	: 270x180x110mm

FFOB-520 POLYAMIDE FLOOR BOX

Benefits

With a compact lid and frame, this is the smallest floor box in the Electraplan range.

Maximum capacity of two standard size outlets, generally one double power socket and one data/voice plate (Max 6 gang).

The load tested* moulded polyamide lid and frame measures only 160x260mm.

A robust cable outlet flap allows cords to safely exit the box with the lid closed and incorporates a neoprene dustguard and a strong fully recessed stainless steel handle.

Installation Features

Outlets mount on an angle within the box to minimise dust accumulation and to allow plugs to be inserted with ease.

Lid features an 8mm rebate for carpet or vinyl floor covering to infill. Deeper lid rebates are available to order.

The lid is reversible to accommodate changes in room layout and is designed to gravity close.

Colours

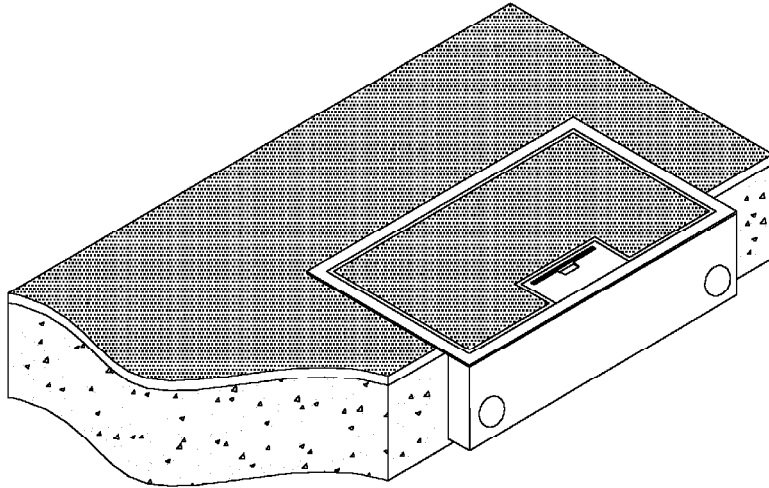

Standard colour is Grey (RAL 7011 Iron Grey) with brown, beige and black available to order. (Minimum quantities, manufacturing lead times and extra charges may apply).

*VDE 0634 "Ducting and trunking and their accessories for underfloor electrical installations."
